PROJECTS

Creative Agency | [WEBSITE](#) | [GITHUB \(CLIENT\)](#) | [GITHUB \(SERVER\)](#)

- It is an agency website, which serves some services like web development, graphics design, etc.
- Users and Admin can sign up and log in to this website using google. Anyone cannot go to some pages without login, which is developed by React Router.
- There are dashboards for User and Admin.
- Users can place orders, see his order list, and give a review of a service. Admin can see all orders of the users. They can add a new service and make a new admin by providing the new admin's email.

Front-end Technology: HTML5, CSS3, Bootstrap4, React.js, React Bootstrap.

Back-end Technology: Node JS, Express JS, MongoDB.

Volunteer Network | [WEBSITE](#) | [GITHUB \(CLIENT\)](#) | [GITHUB \(SERVER\)](#)

- It is a website where volunteers can register for an event and can see their progress on this website.
- Users and Admin can sign up and log in to this website using google. Anyone cannot go to some pages without login, which is developed by React Router.
- There is a dashboard for admin by which admin can maintain the registration request of the users. Admin also adds a new event on this website.

Front-end Technology: HTML5, CSS3, Bootstrap4, React.js, React Bootstrap.

Back-end Technology: Node JS, Express JS, MongoDB

Travel Guru | [WEBSITE](#) | [GITHUB](#)

- It is a travel agency website where you can search for places to visit and can see the description of the spectacular places.
- Users can sign up using his/her email, Google, and Facebook shortly.
- Users can read the description of the places and click 'Booking' to make a booking for that place.
- Then he/she have to fill up a form containing his booking information.
- After clicking start booking, he/she can see the list of hotels along with a google map.

Technology: HTML5, CSS3, Bootstrap4, React.js, React Bootstrap.
